

Type Approval Certificate

This is to certify that the undernoted product(s) has/have been tested with satisfactory results in accordance with the relevant requirements of the Lloyd's Register Type Approval System.

Manufacturer	Kongsberg Maritime AS
Address	Kirkegårdsveien 45, Kongsberg, 3616, Norway
Place of Production	Kongsberg Maritime Korea Ltd 9-7, Sandan 3-ro, Jeonggwan-eup, Gijang-gun, Busan, 46027, South Korea
Place of Production	Kongsberg Maritime AS Kirkegårdsveien 45, Kongsberg, 3616, Norway
Place of Production	Kongsberg Maritime AS Bekkajordet 8a, Horten, 3194, Norway
Place of Production	Kongsberg Maritime China Ltd. No. 136 North Fute Road, Pilot Free Trade Zone, Shanghai, 200131, China
Type	Control Systems
Description	Alarm, Monitoring and Control System K-Chief Alarm Management System K-Safe For detailed product description, please refer to appendix.
Trade Name	K-Chief and K-Safe

Units 1702-1704, 17th Floor (Level-13), Building
Q2, Aurum Q Parc; Gen 4/1 TTC, Thane-Belapur
Road, Ghansoli, Navi Mumbai, 400710, India

Pawan Borate

Specialist Electrical & Control to Lloyd's
Register Marine and Offshore India LLP
A member of the Lloyd's Register group

Lloyd's Register Group Limited, its affiliates and subsidiaries and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'Lloyd's Register'. Lloyd's Register assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.

Type Approval Certificate

Application	Marine and Offshore applications for use in environmental categories ENV1, ENV2 and ENV3 (EAP200 excluded), as defined in Lloyd's Register Type Approval System, Test Specification Number 1 – December 2021. Equipment marked with (1) in the appendix can only be installed in general power distribution zones.
Specified Standard	Manufacturer's specification IACS UR E10 Rev. 8 / 2021 IACS UR E27 Rev. 1 / 2023 and Part 6, Chapter 1, Section 2.16 Rules and Regulations (July 2024)
Ratings	AIM Basis Software for Operator Station, I/O drivers and common software functions in the RCU: V8.3, V8.5, V8.6, V8.7, V8.8, V8.10, V8.12 and V8.13
Additional Tests	Low temperature test (-15 °C / 16 h) Ingress protection (IP2x, IP22, IP44) Acoustic level Compass safe distance For detailed test description, please refer to appendix.
Other Conditions	For systems consisting of the listed components the final functional arrangement and application software are to comply with appropriate Lloyd's Register Rules and Regulations and shall be subject to project related Plan Approval Process, when installed on LR classed vessels. Documents and drawings for the actual application are to be provided according relevant LR Rules and Regulations. The K-Chief and K-Safe system, which implements emergency stop or safety critical functions, have satisfied the requirements of the LR Software Conformity Assessment and can be used without an independent hardwired backup or redundancy within design. The software development and quality assurance processes of Kongsberg are

Type Approval Certificate

covered by the Software Conformity Assessment (SCA) Certificate No. LR2607820SC-02.

The AIM Safe System Software versions 8.3.4 up to 9.0.3 has been evaluated by TÜV Rheinland for compliance with IEC 61508 up to safety integrity level SIL3. Refer to Safety Configuration Manual No. 378006(TC).

Hardware components which are specific for the K-Chief and K-Safe systems are listed in the current Type Approval Certificate - Appendix.

A net filter similar to "Schaffner Type FN2080-16-06" must be used for the RIO new hardware line (RCU 501, RSER 200-4, RMP 201-8).

Specific Conditions of Use as stated in applicable Ex-certificates and the conditions of the LR Rules & Regulations for the Classification of Ships, Part 6, Chapter 2 shall be observed when installed in hazardous areas.

The Ex-certification does not form part of this certificate.

Type Approval does not eliminate the need for any survey, required by the Rules and Regulations.

If the specified standards are amended during the validity of this certificate, the product is to be re-approved prior to it being supplied to vessels to which the amended standards apply.

Compliance with IACS UR E27 Rev. 1/ 2023 and/or Part 6, Chapter 1, Section 2.16 Rules and Regulations (July 2024):

- The compliance with the requirements above is issued with the limitation that the directly connected networks are "trust networks" (according to the definition IEC 62443-3-3 Item 3.1.45).

- It is further issued on the understanding that all connections are wired. Any radiocommunication (e.g. Bluetooth, WiFi etc.) are excluded.

Type Approval Certificate

Type Approval does not eliminate the need (as required by LR Rules) the requirements for further review or for the product to be further inspected and/or surveyed to be installed in ships classed or intended to be classed with LR.

If the specified standards are amended during the validity of this certificate, the product is to be re-approved prior to it being supplied to vessels to which the amended standards apply.

This certificate is not valid for equipment, the design, ratings or operating parameters of which have been varied from the specimen tested. The manufacturer should notify Lloyd's Register Marine and Offshore India LLP of any modification or changes to the equipment in order to obtain a valid Certificate.

Previous Version: This certificate supersedes the certificate number LR2372712TA-02 issued on 23.07.2024 which is hereby cancelled.

The Design Appraisal Document TSO/26-062868-E-01 and its supplementary Type Approval Terms and Conditions form part of this Certificate.

Appendix

Module	Description	Additional Test	Compass Safe Distance	
			Standard	Steering
ALC Panel	Alarm and Command panel	75 to 85 dB ¹⁾	35 cm	20 cm
ALC Panel (stand alone)	Alarm and Command panel	-	-	-
BU AUT	Configurable input panel	-	35 cm	20 cm
